

Rules for Use of the Dickerson Generating Station Whitewater Course

1. Anyone who uses the Dickerson Generating Station whitewater course must sign GenOn's waiver form (enclosed) and submit it to Dickerson Generating Station's Security personnel upon entry to the facility. The form must be signed and submitted upon *each* entry. All adults (over the age of 18 years) entering the facility shall also present a valid, government-issued photo ID (such as a driver's license) to security personnel for entry.
2. All users and visitors of the GenOn whitewater course shall be registered and approved by the Bethesda Center of Excellence (BCE) and present current BCE cards to Dickerson Generating Station security personnel upon entry to the facility. Entry will not be granted without BCE documentation.
3. Standard hours for use of the Dickerson whitewater course are generally, dawn to thirty (30) minutes before published sunset on all seven days of the week, unless otherwise restricted by GenOn. Access to the whitewater course may be closed by GenOn at any time. GenOn shall communicate course closures to the BCE at least 24 hours in advance of closure except in the event of an emergency
4. All users and visitors to the GenOn whitewater course shall be escorted to and from the course by GenOn security personnel. To contact Dickerson Generating Station's security personnel for escort from the course call **301 601 6551**.
5. The primary point of contact at GenOn and BCE liaison is Peter Heimlicher, Environmental Analyst. All communication regarding the use of the GenOn whitewater course shall be between GenOn and BCE. Contact information for Peter is as follows:

Peter.Heimlicher@GenOn.com
301 601 6515 (O)
240 751-2953 (C)
6. In the event of an emergency (medical or otherwise), call the Dickerson Central Control Room **301 601 6565**. If first responders are needed, GenOn personnel will contact them and route them to the scene of the emergency. **Always call the Central Control Room instead of dialing 911.**
